Dear Mr Jones,

Re: Progress on dredging of Victoria Dock

At the A.G.M. of the V.D.B.H.A. held on Saturday 27th October members present were appraised of the progress to date of the dredger. All were very pleased to hear the extent of the area cleared, the further expectations of the continuing works still being undertaken and look forward to its completion as soon as possible.

It was unanimously requested that a letter be sent to you conveying the Members satisfaction with the progress to date. Your supportive relationship with the berth holders and positive response to our concerns is greatly appreciated. All look forward to continuing to see the positive results of your commitment to the dock and berth holders.

Thank you!

Yours sincerely,

Mrs. Kathy Jones M.B.E.

Honsec. of V.D.B.H.A.
