

Berth Holders concern raised with Barry Davies on 20.4.22		
Concern	Response from Barry Davies	Actions
Toilets		
Dirty with mould in several places. Current cleaning regime inadequate	Will raise with CHT -daily inspection by Dock Master	
Toilet block is remote,no immediate help if needed	Consider expanding CCTV - above outer door	
Separate m and f facilities	Revisit the plans/drawings .Costings in summer months	
Number of toilets	Temp facilities during peak periods	
Watkin Jones	Not considered	
Storm Gates		
Can storm boards be fitted?	no as crane would be needed. Possibility of a "wave break " pontoon	
Pollution Cadnant - emergency overflow - reducing or filtering	Filtering system would require specialist input Need to enquire with DC and WW	
inflow on NE corner may be from roads -a lot of litter/rubbish	Berth holders need to report with photographs	
Parking		
Can permits be issued in March for 2023 ?	Will consult with marina managers	
Security		
People,especially youngsters accessing the north side by climbing over gate.	Will investigate but note it is a challenging to prevent unauthorised access	
Service Level Agreement	Marina managers may wish to draft one.	
Jet Skis prohibited	Is this necessary and why?	

Abusive behaviour	Will not be tolerated and a solution is being sought	
-------------------	------------------------------------------------------	--

Date		Further observations/information
		Suggestion Female toilets and showers Disabled/Family rooms Male toilets and showers on left Centre on right
		Would a short term solution be to put temp blocks on north side
		Need to report to berth holders with a contact e mail
		Also the gate lock needs replacing with one that works all the time.Iwan aware
		Has already been done by David O Neill

	Could be included in SLR with sanctions spelt out
